STAT	,

Since Mr. Colby wrote to you on 22 May, we have explored job opportunities for you with all of the Agency officials who might possibly have an interest in your substantial background and experience. We are sorry that this extensive review did not result in our identifying a position at this time that would take advantage of your offer to serve with the Agency.

Although we do not have an opening for you now, your fine qualifications have been noted and we will get in touch with you should an opportunity of appropriate stature and challenge develop.

Thank you for your letter of 28 November concerning possible employment with us when you leave the in December 1973. It was good to hear from you. STAT

> We appreciate your kind offer to be of service to this Agency. It is too early to predict whether we might have any opening for you at the end of 1973 and I suggest that you write to us next July eclosing a short resume. We will be pleased at that time to give your application every consideration. I would be less than candid, though, if I held out much hope that we will be able to identify a vacancy commensurate with your talents. Personnel reductions during the past two years have restricted our professional input to entrance-level trainees and a few highly specialized scientific types. Wish I could

give you a more hopeful answer but this is a truthful one. Drop me a line next summer and we'll see what can or can not be done.

Sincerely,
